PROFESSIONAL SUMMARY

Passionate Computer Science undergraduate with strong fundamentals in programming, web development, and problem-solving, seeking an entry-level Full Stack Developer role to build scalable, efficient, and user-friendly software solutions while continuously enhancing technical skills.

EDUCATION

SRM Institute of Science and Technology, Tiruchirappalli Aug 2023 - May 2027
Bachelor of Technology – Artificial Intelligence and Machine Learning

Samadh Higher Secondary School,Tiruchirappalli June 2021 - May 2023
Class XII - CBSE · Khaja Nagar, Tiruchirappalli, Tamil Nadu

Samadh Higher Secondary School,Tiruchirappalli June 2020 - June 2021
Class X - CBSE · Khaja Nagar, Tiruchirappalli, Tamil Nadu

TECHNICAL SKILLS

Programming & Web	*Python, Java, SQL, HTML, CSS,Bootstrap,React*
Core Concepts	*Object-Oriented Programming (OOP),Computer Networks*
Tools & Technologies	*MySQL, Linux, REST APIs,Docker,NLP*
Soft Skills	*Communication, Problem Solving, Team Collaboration*

CERTIFICATIONS

- ***AWS Academy – Generative AI Foundations***
  Amazon
- ***Artificial Intelligence Fundamentals***
  IBM
- ***Introduction to Modern AI – Networking Academy***
  Cisco

INTERNSHIPS

National Institute of Technology, Trichy – AI/ML Summer Internship *Jun 2025 – Jul 2025*
NIT— Tiruchirappalli

- *Worked as an AI/ML intern under the mentorship of NIT Tiruchirappalli faculty and the Department of Computer Science.*
- *Gained practical experience in Artificial Intelligence and Machine Learning through hands-on projects and research activities.*

VR Della Infotech – Technical SEO Internship *Jul 2025 – Aug 2025*
VR Della Group — Tiruchirappalli

- *Worked as a Technical SEO Specialist to improve website visibility and increase organic search traffic.*
- *Utilized Google Analytics and Google Search Console to monitor website performance and optimize search engine rankings.*

Microsoft AI-ML Azure Internship *May 2025 – Jun 2025*
Edunet Foundation — AICTE —

- *Completed a 4-week virtual internship focused on Microsoft Azure, Artificial Intelligence, Machine Learning, and Deep Learning concepts.*
- *Worked on AI and Azure-based practical exercises using Microsoft Learn under industry mentorship.*
- *Built foundational knowledge in supervised learning, neural networks, computer vision, and cloud-based AI solutions.*

ServiceNow Internship *May 2026 – Jul 2026*
ServiceNow University — SmartBridge — AICTE —

- *Completed a virtual internship covering ServiceNow platform fundamentals, Agentic AI, Flow Designer, and Automated Test Framework (ATF).*
- *Gained hands-on experience in ServiceNow Administration, reporting, workflows, and cloud-based enterprise solutions through practical learning modules.*

PROJECTS

AI Assistant that Turns Shared Links into Smart Reminders *Jul 2025 – Aug 2025*
Tools: Flutter, Python, FastAPI, Firebase, spaCy, BeautifulSoup, Firebase Cloud Messaging (FCM)

- *Developed an AI-powered reminder system that extracts important details such as dates, eligibility, and fees from YouTube, Instagram, blogs, and job links, and automatically creates smart reminders.*
- *Implemented web scraping and NLP techniques to identify deadlines, eligibility criteria, and important dates from shared links.*
- *Integrated Firebase Cloud Messaging to send real-time reminder notifications across devices.*

SmartMed VoiceBot: Automated Primary Health Guidance *Sep 2025 – Nov 2025*
Tools: Python, Whisper, GPT, gTTS, PyAudio

- *Developed an AI-powered voice assistant that converts speech to text, analyzes patient symptoms, generates medical guidance, and delivers voice-based responses in real time.*
- *Integrated Whisper for speech recognition and GPT for intelligent symptom analysis and response generation.*
- *Implemented text-to-speech functionality using gTTS to provide interactive voice responses for users.*

Generative Design for Aerodynamic Wind Turbine Blades *Mar 2026 – Jun 2026*
Tools: Python, XFOIL, DEAP, Genetic Algorithms

- *Developed an AI-based optimization system using Python and Genetic Algorithms to improve wind turbine blade designs and aerodynamic efficiency.*
- *Evaluated blade performance using XFOIL simulations to maximize lift-to-drag ratio under low wind conditions.*
- *Applied DEAP-based evolutionary algorithms to generate optimized airfoil profiles and compare their performance with standard designs.*

ACHIEVEMENTS

- *Secured **1st Prize** in the College Technical Quiz Competition.*
- *Won **2nd Prize** in a National-Level Hackathon conducted by Bannari Amman Institute of Technology,Erode,TN.*
- *Successfully organized the **YUVA'25 Hackathon** at SRM Institute of Science and Technology, demonstrating leadership, teamwork, and event management skills.*

INTERESTS & HOBBIES

- *Fitness and Gym, maintaining an active and disciplined lifestyle.*
- *Playing Chess, enhancing strategic thinking and problem-solving skills.*
- *Building innovative software solutions and publishing browser extensions, including the **Promtply** extension on Microsoft Edge.*
- *Exploring the latest AI tools, building browser extensions, and experimenting with automation workflows.*
